MARVEL-OUS SUUR MÄNG: ELANIKUD SAVE THE UNIVERSE

In an unexpected turn of events, a group of ordinary elanikud found themselves at the forefront of an intergalactic crisis, teaming up with Marvel's iconic superheroes to thwart the nefarious plans of the God of Mischief. It all started when the universe's most formidable trickster, Loki, decided to make a surprise visit to Sõrve, threatening to wreak havoc and chaos.

The Sõr-Vengers were facing a daunting challenge as Loki had stolen all of their powers. Little did they know that their saviours wouldn't be fellow superheroes, but a group of enthusiastic C-Grupp Sõrve-heroes who captured Loki before bedtime.

In an unexpected twist, Thanos revealed that he had found the all-powerful Infinity Stones. With *snap* of his fingers, half the population (C-Grupp) had inexplicably vanished.

Determined to bring back their missing friends, the elanikud pressed on with newfound determination. With the help of the Hulk's Time Machine, they journeyed back in time to seek the Infinity Stones to undo the devastating *snap*.

In the end, as Thanos found himself bewildered by the unexpected cooperation of Sõrve-heroes and Sõrvengers, the universe was saved with a cheer over cups of chocolate milk and cookies.

SÕRVE SOSIN

SÕRVE LAAGRI KULTUURIETENDUST

"SILLAD KODUVÄRAVASSE" - BRIDGES TO OUR HOME GATE

During our time at Sõrve, participants ranging from C-Grupp to B and A-Grupp, including our Adults, actively immersed themselves in Estonian culture through the bridges of laulmine (singing), tantsimine (dancing), language and käsitöö (craft). We are excited to celebrate our Estonian heritage, and show you what we have learned during our week together.

"Now that we've built our bridges, we must nurture them, so they are just as strong for Sõrve 2025."
