# SÕRVE SOSIN

**SÕRVE, ESTONIA**

This is one of the oldest lighthouses in Estonia with the height of 52 m from the foot and 53 m from the sea surface. Previously, a temporary wooden lighthouse was operating here for several years, and in 1960 the current reinforced concrete cone-shape tower was built. You can climb to the top of the lighthouse in summer. From above, there is a view of the Sõrve Cape and the Gulf of Riga.
