## B and C Group rule the camp!

The day started just like most days at camp with activities ranging from sailing, eesti keel, laulmine and other ball sports. However, it all spiced up in the evening when A Group vacated the camp to go on their A Group hike.

With A Group gone, to do whatever it is they do, B and C Group were able to take control of the camp and have dinner alone in the söögisaal while enjoying a great evening of activities of foosball, water games and a quiet lõke, with damper!

## Where are we?

This is the tower on top of Suur Munamägi (Big Egg Mountain), the highest point in Estonia. The mountain is 318m above sea level. That's seven times less than Australia's highest peak Mt Kosciuszko at 2,228m!
